Metabolism of the Hypoxic and Ischaemic Heart

Symposium Organized by the Council on Clinical Science of the International Society of Cardiology and the World Health Organization with the Participation of the Centre of Cardiology of the University of Geneva

Proceedings of a Symposium held at the World Health Organization
Geneva, June 14–17, 1971

Metabolism of the Hypoxic and Ischaemic Heart

Part I

Edited by
P. MORET and Z. FEJFAR, Geneva

173 figures and 44 tables

19 71/72

Contents

Part I

List of Participants XIII
Moret, P. and Fejfar, Z. (Geneva): Foreword XIX

Acute Hypoxia

Chairmen: W. F. H. M. Mommaerts and G. Majno
Rapporteurs: H. A. Heggtveit and J. Scheuer

Introductory Reports

Opie, L. H. (Cape Town): Substrate Utilization and Glycolysis in the Heart. 2 (2)
Newsholme, E. A. (Oxford): The Regulation of Phosphofructokinase in Muscle 22 (22)
Schwartz, A. (Houston, Tex.): Electron Transport and Mitochondria. . 35 (35)
Harris, P. and Gloster, J. (London): The Effects of Acute Hypoxia on Lipid Synthesis in the Rat Heart 43 (43)
Wollenberger, A.; Onnen, K.; Hinterberger, U.; Rabitzsch, G., and Kleitke, B. (Berlin-Buch): Myocardial Protein Synthesis in Acute Myocardial Hypoxia and Ischemia 48 (48)
Laufer, A. (Jerusalem): Acute Myocardial Anoxia. Anatomical Changes and their Possible Relation to Immunological Processes 65 (65)
Hatt, P. Y. and Moravec, J. (Limeil-Brévannes): Acute Hypoxia of the Myocardium. Ultrastructural Changes. 73 (73)

Other Contributions

Benzing, H; Gebert, G., and Strohm, M. (Tübingen): Extracellular Acid-Base Changes in the Dog Myocardium During Hypoxia and Local Ischemia, Measured by Means of Glass Micro-Electrodes 85 (85)
Girardier, L. (Geneva): Dynamic Energy Partition in Cultured Heart Cells 88 (88)
Gvozdjak, J.; Gvozdjaková, A., and Bada, V. (Bratislava): Effect of Propranolol on Oxidative Processes of Heart Muscle 92 (92)
Hochrein, H.; Hunsmann, G., and Stoepel, K. (Berlin): Changes of Intracellular Myocardial Electrolytes in Experimental Hypertension 96 (96)

KÜBLER, W. and SPIECKERMANN, P. G. (Düsseldorf): Changes in Glycolysis and in High-Energy Phosphates During Myocardial Ischemia with Intermittent Coronary Perfusion 100 (100)
KUKOVETZ, W. R. and PÖCH, G. (Graz): Inhibition of Hypoxia-Induced Rise in Adenosine Release and Flow by Coronary Dilators 107 (107)
OLSON, R. E.; DHALLA, N. S., and SUN, C. N. (St. Louis, Mo.): Changes in Energy Stores in the Hypoxic Heart 114 (114)
RAKUŠAN, K. (Ottawa): Myocardial Oxygen Tension and its Dependence upon Major Oxygen Determinants 124 (124)
SCHUCHHARDT, S. (Dortmund): The Intramyocardial Oxygen Pressure at Normoxia and Hypoxia 125 (125)
SINGH, C. M. (Ludhiana); FLEAR, C. T. G.; NANDRA, A. (Newcastle upon Tyne), and ROSS, D. N. (London): Electrolyte Changes in the Human Myocardium After Anoxic Arrest 128 (128)
ZIEGELHÖFFER, A.; FEDELEŠOVÁ, M., and ŠIŠKA, K. (Bratislava): The Influence of Exogenous ATP on Cardiac Metabolism in Acute Hypoxia . 136 (136)

Chronic Hypoxia

Chairmen: P. HARRIS and P. Y. HATT
Rapporteurs: Z. FEJFAR and W. KÜBLER

Introductory Reports

FERRANS, V. J. and ROBERTS, W. C. (Bethesda, Md.): Myocardial Ultrastructure in Acute and Chronic Hypoxia 144 (144)
MORET, P. R. (Geneva): Myocardial Metabolic Changes in Chronic Hypoxia 161 (161)
MEERSON, F. Z. (Moscow): Role of the Synthesis of Nucleic Acids and Proteins in the Adaptation of the Organism to Altitude Hypoxia. 173 (173)
POUPA, O. (Göteborg): Anoxic Tolerance of the Heart Muscle in Different Types of Chronic Hypoxia 188 (188)

Other Contributions

GROVER, R. F. and ALEXANDER, J. K. (Denver, Colo.): Cardiac Performance and the Coronary Circulation of Man in Chronic Hypoxia 197 (197)
REYNAFARJE, B. (Lima): Effect of Chronic Hypoxia on the Kinetics of Energy Transformation in Heart Mitochondria 206 (206)
RUDOLPH, W. (Munich): Myocardial Metabolism in Cyanotic Congenital Heart Disease 209 (209)
SCHEUER, J. (Pittsburgh, Pa.): Studies in the Human Heart Exposed to Chronic Hypoxemia 215 (215)

VERGNES, H. (Toulouse): Modifications in the Activity of Enzymes in Extracts from the Myocardia of Rats Living at High Altitudes 222 (222)
WOLLENBERGER, A.; KARSTEN, U., and KÖSSLER, A. (Berlin-Buch): Cultivation of Non-Proliferating Rat Heart Cells in a Roller System at Oxygen Tensions down to 0.66 mmHg 224 (224)

Ischaemia

Chairmen: R. J. BING and A. WOLLENBERGER
Rapporteurs: M. F. OLIVER and A. SCHWARTZ

Introductory Reports

GUDBJARNASON, S. (Reykjavik) Acute Alterations in Energetics of Ischemic Heart Muscle 232 (232)
CASE, R. B. (New York, N.Y.): Ion Alterations During Myocardial Ischemia 245 (245)
GARGOUÏL, Y. M. (Poitiers): Electrical Activity of Myocardial Membrane. 263 (263)
KATZ, A. M. (New York, N.Y.): Effects of Ischemia on the Cardiac Contractile Proteins 276 (276)
HEGGTVEIT, H. A. (Ottawa): Morphological Alterations in the Ischaemic Heart 284 (284)
GREGG, D. E. (Washington, D.C.): Relationship Between Coronary Flow and Metabolic Changes 291 (291)
SONNENBLICK, E. H. and KIRK, E. S. (Boston, Mass.): Effects of Hypoxia and Ischemia on Myocardial Contraction. Alterations in the Time Course of Force and Ischemia-Dependent Inhomogeneity of Contractility . . 302 (302)
BING, R. J. (Pasadena, Calif.): Reparative Processes in Heart Muscle Following Myocardial Infarction 314 (314)

Other Contributions

BAROLDI, G. (Milano): The Coronary Dilemma in the Ischaemic Heart. . 325 (325)
BOUCHARDY, B. and MAJNO, G. (Geneva): A New Approach to the Histologic Diagnosis of Early Myocardial Infarcts 327 (327)
DE GASPERIS, C.; GONZALES-LAVIN, L.; PELLEGRINI, A., and ROSS, D. N. (London): Ultrastructural Aspects of Human Myocardial Capillaries During Open Heart Surgery 333 (333)
DUCHOSAL, P. W.; GONCALVES, J., and ODIER, J. (Geneva): Electrical Relations Between the Cell and the Whole Heart 336 (336)
FITZGERALD, J. D. and WALE, J. (Macclesfield): The Effects of β-Blocking Drugs on Atrioventricular Conduction and Contractility. 338 (338)
KLASSEN, G. A. (Montreal): Coronary Artery Disease. A Cause of Heterogenous Myocardial Perfusion. 343 (343)

LICHTLEN, P.; MOCCETTI, T., and HALTER, J. (Zürich): The Importance of Perfusion Pressure, Left Ventricular Work and Oxygen Consumption in Determining Myocardial Blood Flow in Man, Especially in Coronary Patients 347 (347)
MARCHETTI, G. V.; MERLO, L., and NOSEDA, V. (Milano): Modifications in Myocardial Metabolism of Lactate and Pyruvate Following Temporary Occlusion in the Conscious Dog 354 (354)
MEESSEN, H. (Düsseldorf): Comparative Morphological and Functional Investigations of the Surviving Atrium of the Guinea-Pig 357 (357)
OLIVER, M. F. and YATES, P. A. (Edinburgh): Induction of Ventricular Arrhythmias by Elevation of Arterial Free Fatty Acids in Experimental Infarction 359 (359)
RIEMERSMA, R. A.; HOLLAND, A.; OWEN, P.; LEWIS, B., and OPIE, L. H. (Utrecht): The Oxidation and Subcellular Distribution of ^{14}C-Palmitate in Experimental Acute Myocardial Infarction 364 (364)
SPIECKERMANN, P. G. (Göttingen): Relation Between Ultrastructural Lesions and Changes in the Content of Energy-Rich Phosphates in the Ischemic Myocardium 369 (369)
WALTER, P.; LAMPRECHT, W.; HUNDESHAGEN, H., and BORST, H. G. (Hannover): Myocardial Blood Flow and Alterations of LDH Isoenzymes in Infarcted Heart Muscle and After Transmural Punctures 371 (371)

Part II: Published as Cardiology, Vol. 57, No. 1–2 (1972)

Controversial Methodological Aspects
Chairman: R. E. OLSON
Rapporteur: L. OPIE

Introductory Reports

KATZ, A. M. (New York, N.Y.): The Force-Velocity Curve. A Biochemist's Viewpoint, 1971 . . . . . 2 (378)
SONNENBLICK, E. H. and BRUTSAERT, D. L. (Boston, Mass.): V_{max}: Its Relation to Contractility of Heart Muscle 11 (387)
SCHWARTZ, A. (Houston, Tex.): Calcium Metabolism 16 (392)
GORLIN, R. (Boston, Mass.): Assessment of Hypoxia in the Human Heart. 24 (400)
GUDBJARNASON, S. (Reykjavik): The Use of Glycolytic Metabolism in the Assessment of Hypoxia in Human Hearts 35 (411)

Other Contributions

BRACHFELD, N. and APSTEIN, C. S. (New York, N.Y.): The Influence of Available Substrate on Contraction of the Hypoxic Myocardium . . . 47 (423)

CARLSON, L. A.; LASSERS, B. W.; WAHLQVIST, M. L., and KAIJSER, L. (Uppsala): The Relationship in Man Between Plasma Free Fatty Acids and Myocardial Metabolism of Carbohydrate Substrates 51 (427)
HECHT, A. (Berlin): The Significance of Enzyme Histochemical Results in Different Forms of Oxygen Deficiency 54 (430)
KLASSEN, G. A. (Montreal): A Correlation of Metabolic and Flow Responses of the Left Coronary System of Man with Coronary Artery Disease . . 57 (432)
MORAVEC, J.; HATT, P. Y. (Limeil-Brévannes); OPIE, L. H. (Cape Town), and ROST, F. D. (London): The Application of the Cytophotometer to the Study of Metabolic Transitions of Isolated Rat Heart 62 (437)
OLIVER, M. F. and LASSERS, B. W. (Edinburgh): Relevance of Studies with Experimental Models to the Effect of Ischaemia on Myocardial Metabolism in Man 67 (442)

Closing Session

Chairman: D. E. GREGG

GREGG, D. E.; MOMMAERTS, W. F. H. M.; HEGGTVEIT, H. A.; SCHEUER, J.; HARRIS, P.; HATT, P. Y.; FEJFAR, Z.; KÜBLER, W.; BING, R. J.; OLIVER, M. F.; SCHWARTZ, A.; OLSON, R. E., and OPIE, L.: Closing Session . . 73 (448)
